

Re: Upcoming Date

We are excited for our upcoming date. As we are both preparing for the upcoming date I would like to share some information with you that may be helpful.

I have enclosed a link to the WAR's buyers guide this will give you all the information you need including pictures, bios, place to order TV and Radio spots. This has all of our approved press photos videos and posters that will be helpful to you in advertising for the show. This is the link [WAR- Buyer's Guide Site](#). It is essential that you use only approved press materials and pictures.

Furthermore, we have A PBS special called, "WAR, Live at the Grove." The show is distributed by American Public Television. We generally work with the local PBS station and to give a press boost for the upcoming show. We will coordinate this with the local PBS station if the venue interested.
